

CigaretteBuster™ Evidence Documenting System

The most popular non-smoking enforcement system in the world

It's Successful!

Continuous and automatic monitoring of any room designated as non-smoking

It's Cost-Effective!

Pays for itself with proof for court and less tenant turnover.

It's Impartial!

Provides proof of each infraction. Decreases complaints about non-smoking rules violations.

It's Simple!

Easy to install and low maintenance

Praise for CigaretteBuster™

High school teacher Dick Austin observed immediate elimination of both smoking and the complaints about smoking, says "I can't praise it enough"

How the CigaretteBuster™ Short Range System works:

Place detectors (left) in any room where you suspect smoking may be occurring.

Attach to wall and wireless equipment is ready to go..

Detector senses any illicit smoking in a room and immediately sends SMS text message to your phone, computer.

Track number of infractions plus time and date of each occurrence!

Proven results in schools, hotels, airports, factories, and hospitals for over 10 years.

We also carry detectors for local rules enforcement, wired systems, and systems with pager notification. Call us to help you determine which approach best suits your site.

Stop non-smoking policy abuse
